

OUR MISSION

Strong families are the foundation of society. By helping couples in their relationships, we intend to build a better community for families and their loved ones. With the right information and care, good relationships will be even better, and those in need can be transformed into relationships of which dreams are made of.

BRIEF HISTORY

Being in an intimate relationship can be just the greatest joy known to man...but it can also be a source of severe pain. With this in mind, Don and Shirley Schaefer, back in the early 1990's established an organization called Knitting Hearts Together Family Enrichment.

Understanding it is easier to teach principles of a good relationship before problems occur; the Schaefers have been designing programs such as this to help educate couples in the importance of working on their relationships. Their programs teach some of the basic skills that are so vital in building healthy relationships and strong families.

It's Time to Take Control of Your Marriage!

In today's challenges and hectic pace... many couples are losing control of the direction their marriages are going in. Our Married for Life Program is about not waiting any longer to put in the power that's necessary to see your relationship flourish!
